

How to Provide Aided Language Stimulation

1. Gain attention

2. Use their (or similar) AAC system

3. Press/point to buttons as you speak

4. Focus on the main words, not all words

5. Emphasize core words

6. Model all types of communication

7. Don't expect a response to everything

8. Be okay with making errors

9. Model as much as possible

10. Encourage participation from all
